

## Excellent research at Wöhlk

*Schönkirchen, 24. Mai 2022:* The Stifterverband für die Deutsche Wirtschaft (Donors' Association for the German Economy) honors the research activities of Wöhlk Contactlinsen GmbH with the seal of approval "Innovative through Research".

Research, development and production are carried out at the contact lens manufacturer in Schönkirchen near Kiel, the company headquarters with research laboratory, development department and contact lens studio. The Stifterverband is one of the largest private science sponsors in Germany. The seal has been awarded since 2014 and is valid for two years at a time. Wöhlk was already allowed to carry the seal in 2020/2021 and has now been awarded it again.

### About Wöhlk Contactlinsen GmbH

With the invention of the contact lens, Heinrich Wöhlk not only founded modern contact optics, but also laid the foundation for Wöhlk Contactlinsen GmbH in 1947. Today, the company is the German market leader in the field of individual contact lenses and a pioneer in the development of innovative materials, manufacturing processes and products.

Research, development and production take place in Schönkirchen near Kiel, the company headquarters with its research laboratory, development department and contact lens studio. Under the leadership of Managing Director Dr. Dirk Lauscher, a total of around 140 highly qualified and specialized specialists work here on a common vision: superior contact lenses for the best possible quality of vision and maximum wearing comfort. **[www.woehlk.com](http://www.woehlk.com)**
